

WHEN THE DEANS MEET, TURN UP THE HEAT!

The University President and Twin Cities Dean Council meet on October 10. AFSCME UMN clerical, technical, and health care workers are in negotiations for our next contract. The University has record profits and reserves; the \$3.4 billion endowment had a 38.7% return on investment last year. Meanwhile, the administration refuses to give us raises that even keep up with inflation.

Join unionized workers at an informational picket to tell the administration that they need to pay us competitive living wages, make benefits affordable, and make concrete commitments for racial justice!
