

Lake County Workers Have Had Enough!

Stand with us for strength as we tackle these tough issues so we can stay right here in Lake County!

For far too long, County workers have settled for less than desirable wages because we love the community. We stay because many of us were raised here and we have deep roots, but that's changing! Many departments have turnover issues which places extra burdens on all of us and these vacancies cost the County more money. We love our jobs and our community, but we are tired of substandard wages and being held back because we have tenure.

Join us and demand that County leadership offer fair wage placements and recognizes those who have shown their loyalty and our longevity.

When: Thursday February 16th

Time: 4:35 pm

Where: Lake County Courthouse
